SMART MOTOR TRANSPORT FLEET MANAGEMENT

A Technological Leap in Vehicle Tracking

www.assamgas.org

AGCL'S DIGITAL INITIATIVES

AGCL has taken a significant step towards efficient fleet management by implementing a Smart Motor Transport Fleet Management System on a pilot basis.

[Read More](#)

DIGITAL INITIATIVES

Five hired vehicles have been quipped with GPS tracking devices, enabling real time monitoring and data-driven decision-making.

Aims to enhance operational efficiency, minimize discrepancies and optimize vehicle utilization.

KEY BENEFITS

- Real Time Vehicle Monitoring
- Accurate Trip Details and Easy Billing
- Prevention of Kilometer Manipulation
- Optimum Utilization of Vehicles
- Exact Duty Hours For Overtime Wages Calculation.
- Track Log Data For Movement Analysis.
